

Abundance: 101

Lesson 20 taking care of nature

I bet you woke up this morning singing. Didn't You?

My Angels, the Birds and I did.

During my morning prayers my Angels said to tell all of you that we should all take care of Mother Nature if we wish to attract abundance in our lives. She is a living breathing being and provides so much for all of us. She feed us. She shelters us, and brings us so much of our abundance that we should give back to her.

The more we give back to Mother Nature my Angels told me the more we will receive abundance in all areas of our own lives. Find ways to give back to Mother Nature on a regular basis. Plant trees, feed the animals, clean up the garbage, recycle.

Blessings come from our Angels when we do these things to heal and protect our earth. For all of you already doing these things the Angels said to thank you and they send you their love.

If you want to find out some of the blessing they send you, Watch for the animals that come your way. Every one of them brings us a spiritual gift when they visit us.

There is a great book called "Animal Speaks" by Ted Andrews that will tell you what gift each animal bring to us.. By the way did you know that when you see a hawk it means you are protected and will receive spiritual abundance?
